CUTTING TOOLS

Pruners

Pruning shears, applicable to pruning branches and potted plants, can provide more care for tender plants. Timely pruning makes your plants healthier, and no matter you are a beginner or a professional, you can find the right pruning shears here. Our pruning shears are exquisitely made of high quality materials and are ergonomically designed to make your pruning work easier.

Loppers

Loppers are used for cutting right size branches in trees or bushes. You can choose different cutting capacity loppers accordingly.
For cutting twigs, it is more convenient to use long reaching loppers than cutting it on ladders. Most of the loppers are made of aluminium handle, making it more light to carry.

Grass Shears

Mechanical grass shears are suitable for cutting smaller manicure cases with beds and terraces.
Our ergonomic designed grass shears ensure a more efficient and comfortable work.

Hedge Shears

We have different styles of hedge shears. They are easy to use, especially for those areas unsuitable for electrical trimmers. Most the hedge shears are made of strong aluminium handles, durable and modern. Ergonomic handle grips & comfortable materials to help reducing the fatigue after long-time cutting.

Pruning Saws

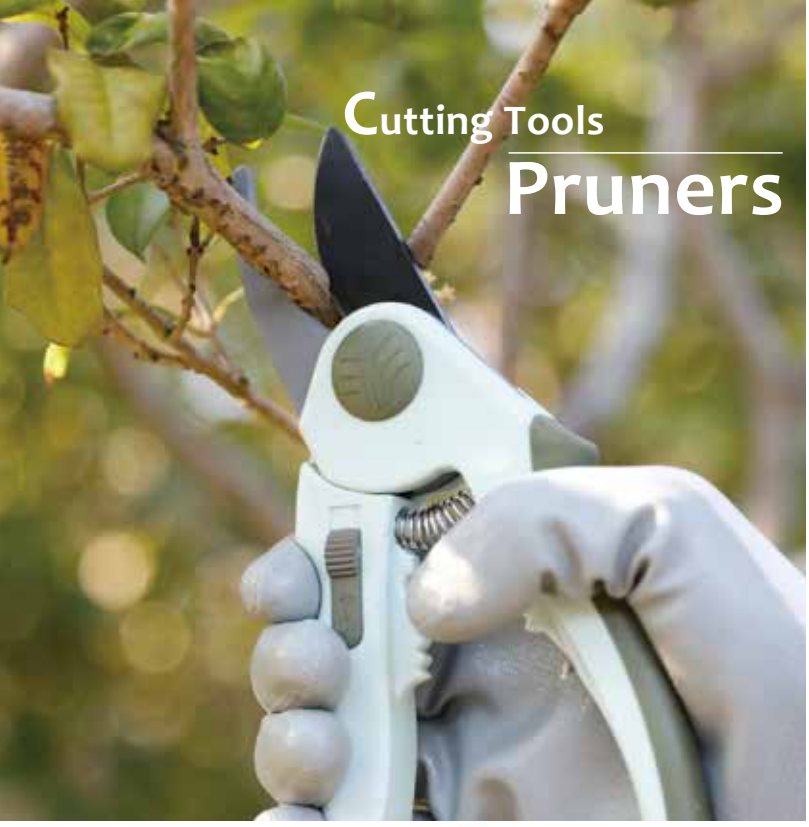

Pruning saws are made of high quality materials, which are robust enough to tackle with trees and shrubs cutting that smaller tools are struggling with.

Hatchets

Forged & heat treated steel head make our hatchets durable and stronger. Good choice for wood cutting and splitting. Wood handle is classic, and fiber glass handle is more durable.

Usages of main garden hand tools

Trowels: Universal tools for preparation of soils, planting, mixing, and etc.

Cultivators: To work soils in order to let air, warmth and rain penetrate more easily to plant roots.

Hoes: To prepare soils by breaking soils into smaller pieces before planting seeds.

Rakes: To clean & flatten soils beneath plants.

Digger & Hoes: The blade side is for cutting weeds, preparing & flatten soils.
The teeth side is for preparing & airing soils.

Forks: To clean, prepare & flatten the soils before planting and for weeding between plants and flowers.

Weeders: To dig out & cut weeds.

Kids

We have very popular range of kids garden tools for children from 3 to 12 years old.
Kid's Series is a fascinating hobby for children. They can know lots of their favorite plants, to stay close with the nature. They may possibly have some failures, but they will also have some unexpected achievements, and that is what makes it such a fun.

WATERING

Sprinklers, Pumps & Watering Cans

Whatever material it is made of, we try our best to supply the right one for you. The full range of different material watering cans: plastic, metal & stainless steel.

Garden Hoses & Hose Reels

From basic garden hose to never kink garden hose, you can find what you need here.

Nozzles & Fittings

Our watering connectors & nozzles are long-lasting and of reliable quality. The spray gun series has a very wide application range. Fine-spray type water is adopted for spraying plants, while jet type water is needed for flushing during garden cleaning.
